RESPONSE

The Honorable Commissioner of  
Patents and Trademarks  
Washington, D.C.

Dear Sir:

This is in response to the Examiner's "NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION" mailed 1/30/2002. Please accept this corrected version of the application December 13, 2001 to redress errors in the use of terms, reduce redundancy and ambiguity in the descriptive writing, to consolidate all the method of attachment precepts so stated together within the application when the attachment method is described, and lastly, to deliver the part missing, the change asked for, and the fee required as per the said Notice To File Missing Parts. Also be informed that, out of necessity to reveal the changes made, the line numbering in each application copy is such to closely follow the numbering in the application of Dec 13, 2001, to aid in referencing between the Dec 13 application and the corrected version. The wording that is to be retained is shown in bold print, on a copy which illustrates the changes; the wording that is to be removed is shown in fine print plus while in brackets, and the wording that to be inserted is shown underlined plus while in bold print.

Please find in this mailing one application copy, 53 pages, illustrating corrections to the Dec. 13 application, and one application copy, 47 pages, as having been corrected, the two copies separated by a descriptive separator sheet..
